

National Continuing Care Residents Association (NaCCRA)

Compensation Policy

The purpose of the Compensation Policy is to state that the National Association of Continuing Care Residents (NaCCRA) does not have any employees. It pays a single annual fee for services that include staffing, office, equipment, licenses, fees and taxes. No portion of the fee is allocable to any one person or their compensation. As such NaCCRA believes it is not responsible for determining the appropriateness of the compensation of staff.
